ADVANCED COURSE ON MODELING AND GRID INTEGRATION OF ENERGY STORAGE SYSTEMS

Dates: October 19 - 23, 2026.

CIEMAT. Madrid (Spain)

APPLICATION FORM

Name:

Email address:

Affiliation:

Country:

1. Do you have any relationship with an institution member of EERA Joint Programme on Energy Storage (EERA JP ES):

   YES Institution NO

2. Does the institution participate actively of a SP?, which one?

   YES SP(s) NO

3. Age under 40 years old: YES NO

4. What is your professional status now?

   Master Student Ph.D Student Postdoc Professional Other:

5. What is your background in the Energy Storage topic?

   No knowledge

   Introductory (coursework/basic concepts)

   Intermediate (applied research or projects)

   Advanced (multiple projects, publications, or industrial experience)

   Details of projects or topics you have studied (max 50 words):

6. How proficient are you in using MATLAB-SIMULINK

   No experience

   Basic (simple scripts / predefined models)

   Advanced (custom models, system-level simulations)

   Details of projects or works where you have used the tool (max 50 words):
